### Novel Companion

**Grade Range:** 6-8  
**Item #7**  
**Format:** Print

A novel-based program using an accompanying workbook focusing on literary components, Cornell-Note Taking, comprehension, and suggested readings. Some families choose to use the novels from this curriculum and pair with Literature Response sheets that can be printed by the Personalized Learning Teacher.

### Pathway Readers

**Grade Range:** 1-8  
**Item #8**  
**Format:** Print

An Amish reading program which portrays a lifestyle in which people cherish character traits, and in which children gain insights into how to behave! Families are large and stories are centered around the family and farm. The stories are interesting to children, if our kids are any indicator! One of my favorites is a story from First Steps in which little Rachel discovers, after attempting to help mother shell peas, that watching baby Miriam really is a good way to help mother with meal preparations! Parents appreciate the Pathway Curriculum for its wholesome stories, poems and reading selections that are based on strong moral principles. The hardbound books are simply illustrated in a black & white format. These readers are suitable for anyone looking for solid, morality-based literature. The material centers on old-fashioned stories of family life on a farm and are wholesome and delightful.

### Language Arts - Writing

### Evan-Moor Daily 6-Trait Writing

**Grade Range:** 1-6  
**Item #9**  
**Format:** Print

Writing is a fundamental part of a child’s education. Establishing the ability to write across different styles and for different audiences is a cornerstone to any student’s future accomplishments and requires frequent practice. Our daily writing exercises help fill an important role in any K through 8th grade core curriculum.

Four Square Writing Method

Grade Range: 1-8
Item #10
Format: Print

Teach writing skills using the Four Square method, which has been proven to work in classrooms just like yours. The Four Square method can be used with all forms of writing and will fit any reading or language arts program. This step-by-step approach is built around a simple graphic organizer that first shows students how to collect ideas and then helps them use those ideas to create clear and polished prose. Open-ended reproducibles make the technique accessible to writers of all ability ranges. Also great for content area writing.

Grammar for Writing Sadlier Oxford

Grade Range: 6-8
Item #11
Format: Print

Based on the principle that the primary purpose of grammar instruction is to improve student writing, this grammar program teaches the conventions of standard English and takes students through the complete writing process as they write arguments, informative/explanatory texts, and narratives. Language Arts – Grammar

Daily Grams (Grammar Supplement)
Item #16
 Grade Range: 3-8
 Format: Print

Guided Review Aiding Mastery Skills texts have been designed as a 5-10 minute, daily review to be used at the beginning of every lesson. Students use concepts learned in capitalization, punctuation, and other areas on a daily basis. This process promotes mastery learning. See individual texts for "Content and Sequence" and format.

Easy Grammar Programs
Item #17
 Grade Range: 3-8
 Format: Print

Easy Grammar texts use the prepositional approach combined with effective strategies. This helps students to understand grammar, a tool for speaking and writing properly. The Easy Grammar series is the teaching series. These texts teach the concepts of grammar.

Editor-in-Chief, Critical Thinking (Grammar Supplement)
Item #18
 Grade Range: 4-8
 Format: Print

These fun, highly-acclaimed products teach grammar, punctuation, spelling, capitalization, and critical reading in a standards-based thinking approach to language mechanics instead of the usual drill and practice found in competing products. Each level has easy-to-understand lessons that explain and illustrate the mechanics of writing followed by activities that require students to carefully analyze and edit stories, letters, and articles that contain mechanical errors. This effective method allows students to gain mastery over concepts that will translate into their own writing.

Language Arts – Vocabulary

Red Hot Root Words

Item #27

Grade Range: 3-8
Format: Print

Help students improve their mastery of the English language and acquire the keys for understanding thousands of words by studying Greek and Latin word parts (prefixes, root words, and suffixes). This is one of the most complete, usable presentations of vocabulary development using word parts you will find. A knowledge of word parts gives students a head start on decoding words in reading and testing situations.

https://goo.gl/RXQzTO
Vocabulary from Classical Roots® is ideal for students mastering a growing content-area vocabulary in social studies, science, literature, and mathematics – predominantly multisyllabic Greek- and Latin-based words. Strategic instruction helps students learn to unlock the meanings of thousands of words. As students transition from learning to read to reading to learn, they will develop a useful, transferable technique to make sense out of unfamiliar words.

https://goo.gl/pHbVoM

Wordly Wise 3000® provides direct academic vocabulary instruction that develops the critical link between vocabulary and reading comprehension. Direct instruction of important, useful, or difficult words for each grade level helps students successfully comprehend content-area texts and improve test results.

Saxon Math Courses 1, 2, and 3

Item #41

Format: Print

Grade Range: 6-8

Promotes mastery of the Common Core State Standards in middle school. Courses 1–3 ensure students attain and retain deep understanding and can apply their learning in real-world situations. The hardcover Student Text provides all the daily instruction and assignments. The text is no-nonsense, but attractive in a clean-cut way. An accent color helps illustrate concepts and provides some organizational structure. Daily Lessons follow a pattern. A Power Up (Building Power) section reviews math facts and provides mental math problems as well as a problem solving dilemma (i.e. problem). The New Concept (Increasing Knowledge) segment provides instruction (written directly to the student), worked examples and a short Practice Set for reinforcing what has just been learned. Written Practice (Strengthening Concepts) continues practice on concepts cumulative from the start of the book. Excellent lesson videos can be found on youtube.

### California Early History
**Item #55**

Printable e-book on Teacher Resources. This book, California Early History, was written as a simplified, yet complete, resource book for you to use in your classroom or at home. The activities can be used as a supplement to your regular history curriculum; or it can be used as your primary history text. There are twelve separate sections in this book. The first eleven sections cover California’s history from the discovery days through statehood. Each of these sections is written in such a ways that it can be used individually - without going in order - or they can all be completed in corede (which we recommend). The sections are arranged chronologically in the book. Section twelve is the answer keys.
