STUDENT ENROLLMENT

Admission

• CORE Butte Charter School is a TK – 12 public school that offers an alternative homeschool education. As such, we admit any student that meets our eligibility criteria as outlined in our enrollment compact provided students meet California State residency requirements and are at least five years old by the state deadline of the year in which he or she enrolls and is not older than 19 years of age at the time of enrollment but who may be 22 years of age if he or she has been continuously enrolled in a California school and is making reasonable progress toward graduation. Students who will have their fifth birthday after the state deadline but prior to December 2nd may enroll in an optional two year transitional kindergarten program. Students who will have the fifth birthday after December 2nd, but prior to March 1st, may enroll on or after their fifth birthday once assessed for kindergarten readiness. Students who do so must enroll as a kindergartener in the subsequent fall term in order to complete the requirements for a complete kindergarten academic year.

• Students enrolled are in a Personalized Learning program that follows state regulations for compliance with Independent Study. Students must be able to work independently.

• Teachers work in partnership with the parents and students in designing the educational pathway they feel is compatible with the goals and learning style of their son or daughter. Therefore before enrolling in the school it is important for parents and students to visit our website and read this handbook in order to understand the philosophy and guidelines of the school. Should enrollment in CORE be desirable, parents and students are required to attend an orientation and a pre-enrollment interview with a CORE teacher and administrator/designee in order to ensure student success in our school. By choosing to enroll their children in CORE parents accept co-responsibility for their children’s education.

• It is also important for parents to realize that in accordance with California State Assembly Bill 544, it is not legal for a student to be concurrently enrolled in a charter school and in any other school, public or private, with the exception of concurrent enrollment in a Community College and/or Regional Occupation Program.

• The Board of Directors is committed to equal opportunity for all individuals in education. School programs and activities shall be free from discrimination, including harassment, on the basis of a student’s: Disability, Gender, Nationality, Race or Ethnicity, Religion, Sexual Orientation, military, veteran, victim of stalking, or basis of any other protected class and/or Association with individuals with one (1) or more of the above characteristics.

PERSONALIZED LEARNING OPTIONS THROUGH CORE Butte Charter School

CORE Butte Charter School offers support classes for our Personalized Learning Program at three sites in Chico and Paradise.

The roots of our program reside in the K-12 Home Study program, now located in Chico on Humboldt Avenue, and in Paradise on Pearson Road. These programs offer an hour or more per week support for some elective and academic subjects, while the parents provide the daily academic instruction for all subjects. Personalized Learning Teachers work with the parents to select state standards aligned curriculum, assignments, and assessments. Work is completed by the student every academic day of the school year, under the supervision of the parent. Field trips, tutoring, and classes in the community are coordinated by the parent and teacher to accommodate the student's best learning schedule. A budget is put in place to allow all students access to these academic supports.

CORE Butte High School (CBHS) is located on Cohasset Road and was designed as a hybrid model program. This program allows students to attend three or more classes per week on site. This model provides academic instruction delivered by education professionals two or three days per week. The parent is still very involved in supervising and correcting homework, participating in meetings regularly with the teacher and student, and becoming engaged with the overall high school program. CBHS also provides a small high school culture for students that is safe, promotes responsibility, and offers many opportunities. Our sports program includes volleyball, basketball, track and golf. Other sports are planned for the future. The ASB (Associated Student Body) sponsors community events, dances and a prom. The program is designed to offer both flexibility and stability.

The role of the Personalized Learning Teacher (PLT) who serves families participating in Independent Study is to offer support and guidance to parents who accept primary responsibility for the education of their children. The teacher of a home-based student, who chooses a combination of Independent Study and Learning Center instruction classes, is responsible for accountability, documentation, guidance and oversight of the student’s educational program.

Personalized Learning Teachers:

- Secure approval from CORE School Administrator for enrollment if applicable
- Obtain approval from Special Education Administrator
- If applicable, 504 or EL students notify appropriate administrator
- Assist the family in completing all the enrollment forms
- Issue a Parent/Student handbook or direct attention to an electronic version
- Assess the student’s current levels
- Advise on curriculum offerings from the CORE Butte catalogues and library and make Vendor Course Instructor (VCI) orders for student/parent
• Answer a family’s questions as they arise
• Serve as a liaison between the family and the CORE Administration, Staff, Learning Center Instructors and Vendor Course Instructors in addition to other community resources
• Provide direct instruction through classes offered at local Educational Resource Centers
• Provide direct tutoring instruction when appropriate for student progress
• Coordinate testing and assessment
• Keep current with school policy and procedures and notify students and families of any changes that affect them
• Attend any IEP, 504, or Student Study Team meetings of students whom they teach or supervise
• Verify student attendance records
• Verify completion of assignments, student learning, and document work completed in Assignment and Work Record
• Collect and approve sample work from each subject area

**During meetings, Personalized Learning Teachers:**

• Determine together with the parent and student, assignments and learning goals to be accomplished during the learning period.

• Discusses the following as needed:
  o Curriculum choices
  o Diploma options and graduation requirements
  o Development of the Personalized Learning Plan
  o Parent training opportunities

  o Class options in the local community - Vendor Course Instruction (VCI)

• Ensures that the personalized program continues to meet the student’s academic needs.

  o Record learning content
  o Obtain completed work and logs
  o Assess student progress
  o Make changes to Student Assignment and Learning Record as needed
  o Deliver educational materials and make recommendations to their use
Notify parents and students of school related governance meetings, events and activities

**Attendance**

Attendance is taken according to the California Education code for Independent Study. This model of education requires that the parent or legal guardian act as primary educator with the assistance of the credentialed teacher.

- At the meetings, the teacher will verify that the student completed work each day and complete the Student Learning Log (Contemporaneous record).
- The teacher issues assignments to be completed during the next learning period.
- Attendance can be claimed only for work completed.
- A Compact Violation / Missing Assignment Report will be issued if the agreed upon work is not completed.
- A Compact Violation / Missing Assignment Report may be issued for a missed meeting, missed homework from a home study or learning center class, missed IEP tutoring sessions, homework that is not graded, or lack of communication with the Personalized Learning Teacher.

It is the responsibility of the credentialed teacher to establish whether or not the amount of work a student completed, or the amount of knowledge he or she gained, substantiates the days of attendance claimed. If, in his/her professional judgment, a teacher thinks the student has not engaged in the learning process well enough to warrant the claim of attendance, it is his/her responsibility to subtract days from the attendance, issue a Compact Violation / Missing Assignment Report (CV/MAR), and begin the truancy process, which may result in the student’s dis-enrollment.

**Please note:** Incomplete work or other violation of the Enrollment Compact may result in a Compact Violation/Missing Assignment Report, indicating that independent study may not be the appropriate setting for student success. A meeting with the parent/teacher/student or a Student Success Team conference will take place, and a plan will be established to ensure that the compact is fulfilled. The student will be monitored on a weekly basis from that point. If the agreed upon work is not complete, or a recurrence of the compact violation takes place, a second CV/MAR is issued. If a third CV/MAR is issued, a letter from the administration will follow, and the student may lose his or her privilege to participate in our program and the County School Attendance and Review Board (SARB) may be notified of the truancy.

**Small Group Instruction:** Small group instruction may take place at a resource center or some other location.
Student Assignment and Learning Records

Personalized Learning/Independent Study:

- Students/Parents and teacher may meet weekly, or at the very least face to face once every 30 days to review and/or document the learning that has occurred in each curricular area delineated in the student’s Student Assignment and Work Record. These regular meetings provide an opportunity for the parent and student to ask questions and for the teacher to share teaching strategies and offer support and encouragement. The teacher, parent and student also use this time to choose appropriate work samples to be included in the student’s learning records for the month’s/year’s assessment.

- It is the responsibility of the teacher to work with parents and students (as determined by the Master Agreement) to document the monthly learning of each student. The teacher will also document the content of that learning by defining concepts for the student’s Student Assignment and Work Records and California state standards.

- If a student is attending Small Group Instruction or Vendor Course Instruction classes, it is the responsibility of the teacher to collect the necessary information from the VCI teachers in order to complete the Student Assignment and Work Record. Learning Center Instructors and VCIs should be in close contact with the teacher to provide summaries of the content being covered in their classes. They should also alert the teacher and parent to any concerns that may arise with the student.

NCLB CORE COURSE EXPECTATIONS - ACCESS TO A HIGHLY QUALIFIED TEACHER

- In order to improve instruction for all students, federal legislation "No Child Left Behind" requires that all students have a "Highly Qualified" teacher in all core subject areas. CORE Butte Charter School may provide an additional instructor in order to meet this requirement.

- As required by NCLB, CORE Butte Charter School will assign a highly qualified teacher to every student in all core subjects. Core subjects are defined as any a-g approved college prep course, any non a-g: English, Mathematics, Science, History, Government, Economics, Spanish, French, Dance, Drama, Arts, or Music courses even if the class is taken for elective credit.

- A dedicated highly qualified teacher will be assigned to every high school student in every core subject. The highly qualified teacher will notify the student in a letter of the time they are available for regular student access for answering questions, explaining assignments, and/or providing feedback. Each semester the highly qualified teacher will review the supervising teacher’s gradebook assignments and verify that assessments have been given to assess mastery.

- Personalized learning teachers will ensure that all a-g students are assessed to ensure mastery of the content standards. Acceptable assessments include, but are not limited to, tests, essays, projects, research papers, presentations and exams. All a-g courses must require a final exam or a significant final project. Major assessments must be proctored by a CORE Butte staff member or tutor.

- Parents/guardians have taken on the responsibility of providing instruction, including providing dynamic opportunities for learning, correcting work, monitoring progress,
and assessing students regularly.

- Together, the highly qualified teacher, personalized learning teacher, and parent/guardian will comprise an ideal educational team providing the best opportunity for student success.

**The main purposes of a completed Student Assignment and Work Record are to:**
- Document a student’s progress towards his/her goals and objectives.
- Document a student’s achievement of the skills necessary to be a positively contributing citizen.
- Recognize and commend the learning achievements of each student.
- Assess the student’s mastery of the standards.
- Document a student’s school attendance.

CODE OF CONDUCT

Honor Code
The honor code dates back as far as 1779 and was first established at The College of William and Mary at the directive of Thomas Jefferson. An honor code is a set of rules and ideals that express
the school’s principles and standards. Focused mainly, but not solely, on academic honesty, an honor code allows for a standard that students can hold to when attending CORE. The Honor Code will articulate the interest to the school community in maintaining our high standards. The goal of CORE is to help every student reach his or her highest potential.

**Honor Code Pledge**
As a CORE student, I pledge to be a person of integrity. I will not give or receive unapproved assistance in any academic exercise. I will commit myself to honesty, respect, responsibility, and trust.

**Explanation of the Honor Code**
Responsibility, respect for self and others, regard for the welfare of the community, pride in accomplishments, and the rights of everyone, involve each of us being persons of integrity whose actions demonstrate the honor code commitment.

Any actions, whether intentional or unintentional, which disregard honesty, diminish the integrity of both the individual and the community go against the established honor code. Moreover, such actions do not give the teacher the opportunity to evaluate the student fairly or offer assistance when it is needed. They also deprive the student of a valid learning experience, which is crucial to educating the whole person. While a member of the CORE community, each student is expected to conduct himself/herself with integrity and to uphold the Honor Code. Though not exhaustive, the following represent examples of actions which may violate the Honor Code:

1. **Cheating**: Copying work or giving your own work to another; unauthorized use of study aids or collaboration during testing; obtaining or distributing copies of testing materials; giving or receiving information regarding a test before, during, or after the test.

2. **Plagiarism**: Representing others’ ideas or expressions, whether published or unpublished, as your own without proper citation of credit.

3. **Falsifying data/citations**: Buying, selling, giving, or receiving term papers, notebooks, or the like, from any source, including the Internet.

4. **Fabricating academic documentation** (e.g., letters of reference).

5. **Abuse of Media Center privileges**: Defacing books or other library materials; failing to return overdue books, thus depriving others of their use.

6. **Purposeful destruction, theft, or misuse of electronic media** (computer hardware or software).

7. **Lying to an administrator or teacher** during investigations of academic dishonesty.

**Procedures / Sanctions for Honor Code Violations**
With regard to issues concerning the Honor Code, the teacher will initially speak with the student to ascertain the facts. The details of this conversation, as well as the facts which are discussed, will be reported using the Incident Report form. All materials pertinent to the situation will be given to the Administrator in charge. The Administrator will meet with the student to make a determination regarding the upholding of the Honor Code Pledge.
While a student at CORE, in cases where it is determined that a student has violated the Honor Code, the following will apply:

1. Upon a first offense, the student receives a zero on the assignment with no opportunity for make-up. The student's parents/guardians are advised that the student has violated the Honor Code.

2. Upon a second offense, the student receives a zero on the assignment with no opportunity for make-up. The student's parents/guardians are advised that the student has violated the Honor Code. The student must relinquish any/all leadership positions (e.g., class or club officer, athletic captain, etc.) for a period of one calendar year from the date of the second offense.

3. Upon a third offense, students will be asked to withdraw from the program.

One of the goals of CORE Schools is to support students in developing wisdom and leadership. Our code of conduct is tied to that goal and is threefold. It is our intention that students, at home, in the Educational Resource Centers, and on field trips will:

**Demonstrate character and respect for themselves, others and the environment by:**

- Choosing a healthy lifestyle that would preclude the use, possession or distribution of drugs, alcohol or tobacco.
- Choosing their speech carefully and thoughtfully, eliminating profane and vulgar language.
- Choosing to conduct themselves with honesty and integrity by not engaging in theft, cheating, plagiarism, or untruthful statements.
- Choosing to exhibit a positive attitude about themselves and the world around them.
- Choosing to respect others' boundaries, both physical and psychological, so that the environment is safe and free from violence and harassment.
- Choosing to respect others' possessions.
- Choosing to be kind and considerate at all times, using acceptable problem solving skills to work out differences.
- Choosing to care for the buildings and locations made available to our school, eliminating vandalism or careless neglect.
- Choosing to respect the natural environment and the issues surrounding the stewardship of our planet.
The Educational Resource Center (learning/enrichment center) is designed to support ALL students enrolled at CORE. The Center provides opportunities for students to reinforce a variety of academic skills, learn in specialized programs (e.g. computer labs), receive individualized and small group instruction, and participate in specialized assessment. The Center is also a place for teacher/parent meetings, teacher collaboration, and extracurricular activities. The Center is staffed by a combination of certificated and classified staff and utilized by a variety of credentialed professionals.

CORE provides many enrichment classes at the Educational Resource Centers. These classes are available to all age groups. Center class schedules are available online.

- All students are eligible to attend the centers as is appropriate to their personalized program.
- A fair and legal system for admitting students to center enrichment classes has been established and implemented.

**Center Use**

All students must be signed in and out every time they are present in a center. Please indicate on the student registration form if your High School student is NOT allowed to leave campus and whether your elementary student IS allowed to sign in and out of campus. Prompt drop-off before and pick-up after enrichment classes and activities is required. See Open Campus Policy on page 34.

**TESTING AND ASSESSMENT**

In order to continue to offer innovative alternative educational programs, charter schools must abide by the laws that govern them. According to California charter school law, we must demonstrate that our students are learning at a level equivalent to or greater than that of children in traditional schools. If we cannot, we risk losing our charter and the students risk losing this option.

We recognize that standardized tests do not always accurately reflect a student’s knowledge and skills. While we have the opportunity to see, first hand, how much our children are learning, testing creates an avenue with which we can demonstrate to the California Department of Education, and to the Western Association of Schools and Colleges and the California Charter School Association, our accrediting institutions, what we already know to be true.

With this in mind, we urge you to prepare your son or daughter to participate in the California Assessment of Student Performance and Progress (CAASPP) program mandated by the State to administer this Spring. The individual results will not be used by the state to track or label the students in any way. Parents who choose to do so may request in writing that the test results not be placed in the student’s file or portfolio.
Evaluation and Grading

Although traditional grades are not required or appropriate for every student or at every grade level, formal written assessment of a student’s progress is. They are a means for feedback and praise of the student’s accomplishments. As such, CORE Schools require all teachers to submit a Grade Report or Student Evaluation each learning period with a formal report card at the semester. **These report cards become a formal part of the student's file unless the parent requests otherwise in writing.**

### COMMUNITY SERVICE

It is suggested that each student serve his or her community. The personalized learning teacher will assist the student in finding organizations that may need volunteers.

**For high school students, one credit (or unit) will be granted for every fifteen hours served.** The student may do a project which accompanies the service, i.e., a written report, a video project, a speech, a presentation, etc. The teacher will grade the project according to California state standards. Additional guidelines may be found in the High School Catalog.

### MATERIALS

**Nature of Materials: Charter Schools and Religious Instruction**

There should be no confusion regarding the use of religious materials in independent study/home-based education. A recent study of this issue resulted in guidelines that seem to accurately reflect the rights and opportunities of parents and students in Charter Schools. This study included intensive discussions with legislative representatives, legal counsel, parents, religious groups, and the California Department of Education. It is very clear that by applying the following guidelines to charter school instructional programs the schools will operate lawfully, and of equal importance, with maximum respect for individual rights.

- The parent/guardian acting as a co-educator, or in any other manner assisting in the instruction of their child, is NOT considered an agent of the State of California and therefore is not bound by those laws that guide the teachers who are paid by the State of California. The parent/guardian, as provided by the Constitution of the United States, is provided the right to freedom of expression of their religion and may at any time use religious content in the instruction, guidance, and care of their child.
- The State of California and subsequently its agent, the teacher, are not permitted to purchase or otherwise provide materials containing religious content for a student or for any other purpose.
- A Charter School may not require or maintain any student achievement records, including transcripts, report cards, portfolios, or any other documentation regarding the student, that contains religious content.
- The Independent Study Teacher of a State of California Charter School may not, during the course of instruction, utilize materials or expressions deemed to contain religious content.
- All children are issued non-sectarian curriculum in all core subjects that comply with state requirements.
• CORE Instructors, who are paid by the state of California through a Charter School are considered an agent of the State during their course instruction and therefore may not teach utilizing materials or expressions deemed to contain religious content.

Any deviation from these guidelines will jeopardize individual rights and even Charter Schools themselves.

---

**Educational Materials**

There are three ways in which a parent can receive educational materials and curriculum through CORE.

• Educational Materials catalogues, Elementary and High School, through which parents can review curriculum offerings
• The CORE Schools' libraries which are stocked with a variety of educational materials and curriculum
• The PL teacher's classroom budget for special items required in order to meet a student’s needs.

Parents, with assistance from their teacher, choose which materials they will use. The parents review the appropriate catalog/s, talk with their teacher, and decide on the appropriate curriculum for each course of study. The charter has many approved educational materials and curricula choices displayed within the school catalogues.

Note: All materials provided to the student are the property of the school. Families must return the materials when the student is finished using them for their educational program. If these materials are not accounted for at the end of the school year, the school will submit a missing materials form that will be used to charge the families for the missing resources. This will include any missing or damaged technology resources. The charter reserves the right to withhold files and transcripts if a student causes willful damage to school property. Unpaid outstanding bills may be forwarded to a collection agency.

**STUDENT BUDGET GUIDELINES**

CORE Butte Charter School believes in and supports learning in the broad community. The school provides every student with an Educational Unit (EU) budget in order to personalize his/her education beyond the traditional curriculum. In 2014, the Local Control Accountability Plan (LCAP) required that specific funds be allocated for student academic improvement. The LCAP committee chose to allocate an additional $300 per student for academic tutoring and support, raising the total budget to $1300. The following chart defines how the Educational Unit (EU budget) may be spent.

**The EU Budget**

**Description:** Educational Units are allocated to each student in order to support classes on site and in the community, as well as field trips and other educational pursuits, which are not available through the assigned curriculum. EU allocations should be aligned with the learning plan and not used indiscriminately. Teachers use the Online Purchasing System (OPS) to place these orders.

Academic support should always have priority over electives. The use of funds is to be determined by the teacher in cooperation with the parent. If the student is not proficient in math and English Language Arts, academic tutoring should be the top consideration.
EU Budget: $1300. The entire $1300 may be used for tutoring and academic classes. A maximum of $700 may be used for electives. This budget does not roll over from year to year, and is not shared among family members.

### Total Educational Budget for Academic and Elective Support: $1300

It is the responsibility of the PLT to monitor that no student exceeds the $700 limit on elective EU expenditures.

### Withdrawal from Vendor Course Instruction Classes

A student may choose to withdraw from or Vendor Course Instruction class. The parent or student must contact the personalized learning teacher to notify him/her that he/she will no longer be attending. It is the parent’s/student’s responsibility to contact his/her teacher about dropping a class prior to the next class meeting. The EUs that have been allocated for classes enrolled in but not attended will NOT be returned. A student who does not follow this procedure jeopardizes her/his right to attend VCI classes. The teacher must Cancel the purchase order for each class.

EUs allocated for enrichment classes at the centers enrolled in but not attended will also not be returned.

### Vendor Guidelines

1. **Vendors will NOT be paid for student instruction without a Vendor Purchase Order (PO).** The teacher must provide the PO number before instruction may begin for each student.
2. Vendors in the community are paid for instruction only. Minor materials that are part of the instructional time should be included in the class fee. Materials that become a product for students to take home or give as gifts must be purchased individually by the parent/student.
3. **Vendors are not paid for students who withdraw from the class.** Vendors should check their CORE rosters monthly to verify student attendance. If a student is no longer attending,
but the vendor has received a PO or check for that student, the vendor should contact the administrative office at 530-809-4152, to cancel payment.

4. **Vendors must be able to reschedule classes if the vendor cancels.**

5. Tutoring Fees: the maximum one-on-one tutoring rate is $25 per hour. A group rate of not more than $35 per hour is required for 2 or more students.

6. Fees for CORE students should not exceed the cost for other students in the community.

7. Instructional fees may NOT be charged during the school year to pre-pay for summer instruction. The months allowed by the school include the last two weeks of August through the third week of May.

8. Vendor descriptions should state whether a registration fee is required, which is **paid by the parent**. Registration fees will NOT be paid by CORE Butte. **Registration, memberships, dues and uniforms are to be paid by parent.**

9. Vendor descriptions should be updated annually for accuracy.

10. Vendors must invoice the school in order to be paid for services

11. **CORE does not provide space for tutors. By law, independent contractors (vendors) must arrange for their own space, copies and supplies.**

   The School Director must approve exceptions to the above guidelines.

**EMR Budget**

Description: On rare occasions, some curriculum or related items will not be available in the library. The teacher must use their discretion to purchase these supplemental items by utilizing the teacher’s Educational Material Resource (EMR) budget.

This budget is intended to supplement the regular curriculum and must be incorporated into the student’s educational plan. The total placed in the teacher’s EMR budget is $1000 for the year to support all families on the teacher roster. The teacher must use their own professional judgment in order to meet the needs of students within the $1000.

In the effort to expedite special orders for students and families, the following list has been revised so that you may be aware of disapproved items and items requiring permission.

If the cost of an individual request for EMR curriculum exceeds $200, the student’s EUs should be used. Almost all special requests for single curriculum and online program expenditures should/will be under $200.

**Disapproved items:**

- Sectarian or religious materials
- Ink cartridges or printers
- Physical education equipment
- Dangerous materials such as toxic, adhesives, engines, carving implements, or chemicals
- Costumes, uniforms
- Hard assets such as cameras, telescopes, airbrushes, ceramic wheels, musical instruments, electronic devices
- Musical or entertainment CDs, DVDs, videos of non-instructional value
- Live animals or animal care equipment
- Backpacks or tote bags

Teachers must check the library before placing EMR orders.
The counseling and administration departments rely heavily on email to communicate with high school students. Please be sure that the counseling department and your student record reflect an email that is regularly monitored.

The CORE Board of Directors has elected to allow the use of certain CTE (Career Technical Education) courses to satisfy the Foreign Language / Visual & Performing Arts graduation Requirement. Graduation versus UC/CSU Admission requirements and CTE Approved courses are listed below.

**Cal Grant GPA Submissions**

All 12th grade students' will be deemed a Cal Grant Applicant and GPAs will be submitted electronically unless the high school counselor is notified of the student / families decision to Opt-Out and an opt-out form is completed by December 1st of the student's year of graduation.

**College Classes**

Students may, when deemed appropriate, take college courses while concurrently enrolled in CORE. In order to do this, a teacher must verify that a student has the ability to be successful in this environment and adhere to the following process:

- Contact the CORE Counseling Department to see if an agreement is already in place with the college the student wishes to attend.
- If there is not already a process in place, contact the community college’s Outreach department to verify their concurrent enrollment process.
- Confirm with the CORE Counseling Department that he/she is able to work with the desired college.
- Complete the college concurrent enrollment forms and any other necessary paperwork in a timely manner.
- Submit the paperwork to the college along with a copy to the student's PLT and the CORE Counseling Department.
- Register for classes.
- Inform the teacher of the classes admitted to and any required texts.
- Transcripts of completed coursework must be submitted to the administrative offices within six weeks of the end of the CORE semester. Transcripts must include grade, credits, and grade points earned.

**Important:** Students enrolled in CORE may not take more than a total of 11 allowed units per semester at any one college.
Graduation Requirements

In order to graduate, students at CORE will have successfully completed the following course requirements. Students must, in addition to CORE’s graduation requirement, satisfy the any current California High School Exit Examination (CAHSEE) requirement in order to receive their high school diploma. Visit [www.cde.ca.gov/statetests/cahsee](http://www.cde.ca.gov/statetests/cahsee) for more details.

**IMPORTANT GENERAL INFORMATION**

**Drop Off/Pick Up** - Students may be dropped off at their school site no earlier than 15 minutes before their program/activity begins and picked up no later than 15 minutes after their program/activity ends. If a student (K-8) is going to be picked up by anyone other than his or her parent, the parent must add his/her name/s to the emergency card.

Students are NOT to be on campus unless in a class or in supervised tutoring. A supervisor will oversee the lunch half hour if scheduled on the Enrichment Center Class Schedule. Students who are not in class or in a supervised setting will be asked to call home and have a parent come pick the student up.

**Lunches** - Students in the CORE program must bring their own lunches. Kitchen facilities are off limits to both parents and students at each center.

**Driving Issues** - Please respect all driving regulations and speed limits. Parking rules are unique to each center. Please review or ask your personalized learning teacher what the restrictions are at your local center. Students who drive in an unsafe manner will lose the privilege of driving on school property and will be required to find another means of transportation to school.

**Accreditation** - the Western Association of Schools and Colleges (WASC) and the California Charter School Association (CCSA) accredit CORE Butte Charter School. CORE Butte is a member of the Association of Personalized Learning Schools (APLUS.)

**Governance** - **Charter Council Meetings** are held monthly. **Board Meetings** are held quarterly. All governance meetings are open to the public. Please check the school website or contact your Personalized Learning Teacher for the meeting locations and times.

Screening - The Charter School provides for the screening of pupils’ vision and hearing and screening for scoliosis to the same extent as would be required if the pupils attended a non-charter public school.

**STUDENT ACCIDENT ONLY INSURANCE**

Student Accident Only Insurance is available through United Health Care. Please contact your school office for a brochure.

500: Students  Bullying Prevention and Conflict Resolution

Approved by the Executive Director: 06/14/2013
ADOPTED

Board Policy:

Bullying Prevention

A. CORE Butte Charter School believes that all students have a right to a safe and healthy school environment. The district, schools, and community have an obligation to promote mutual respect, tolerance, and acceptance.

B. Studies and experience demonstrate that bullying most often occurs when activities take place in less-supervised areas. Students are NOT to be on campus unless in a class or in supervised tutoring.

C. CORE Butte will not tolerate behavior that infringes on the safety of any student. A student shall not intimidate, harass, or bully another student through words or actions. Such behavior includes: direct physical contact, such as hitting or shoving; verbal assaults, such as teasing or name-calling; and social isolation or manipulation.

D. CORE Butte expects students and/or staff to immediately report incidents of bullying to the principal or designee. Staff who witness such acts take immediate steps to intervene when safe to
do so. Each complaint of bullying should be promptly investigated. This policy applies to students on school grounds, while traveling to and from school or a school-sponsored activity, during the lunch period, whether on or off campus, and during a school-sponsored activity.

E. To ensure bullying does not occur on school campuses, CORE will provide staff development training in bullying prevention and cultivate acceptance and understanding in all students and staff to build each school's capacity to maintain a safe and healthy learning environment.

F. Teachers should discuss this policy with their students in age-appropriate ways and should assure them that they need not endure any form of bullying. Students who bully are in violation of this policy and are subject to disciplinary action up to and including expulsion.

G. The school’s Student Code of Conduct will be followed by every student while on school grounds, or when traveling to and from school or a school-sponsored activity, and during lunch period, whether on or off campus.

The Student Code of Conduct includes, but is not limited to:

a. Any student who engages in bullying may be subject to disciplinary action up to and including expulsion.

b. Students are expected to immediately report incidents of bullying to the principal or designee.

c. Students can rely on staff to promptly investigate each complaint of bullying in a thorough and confidential manner.

d. If the complainant student or the parent of the student feels that appropriate resolution of the investigation or complaint has not been reached, the student or the parent of the student should contact the principal or the School Counselor. The school system prohibits retaliatory behavior against any complainant or any participant in the complaint process.

H. The procedures for intervening in bullying behavior include, but are not limited, to the following:

a. All staff, students and their parents will receive a summary of this policy prohibiting intimidation and bullying as part of the student handbook which is distributed at enrollment, is updated annually, and is available on our website at www.corebutte.org.

b. The school will make reasonable efforts to keep a report of bullying and the results of investigation confidential.

c. Staff who witness acts of bullying shall take immediate steps to intervene when safe to do so.

d. People witnessing or experiencing bullying are strongly encouraged to report the incident; such reporting will not reflect on the targeted person, or witnesses, in any way.

Conflict Resolution

A. CORE believes that all students have a right to a safe and healthy school environment. Part of a healthy environment is the freedom to openly disagree. With this freedom comes the responsibility to discuss and resolve disagreements with respect for the rights and opinions of others.
B. To prevent conflict, CORE will incorporate conflict resolution education and problem solving techniques into the curriculum and campus programs. This is an important step in promoting respect and acceptance, developing new ways of communicating, understanding, and accepting differing values and cultures within the school community and helps ensure a safe and healthy learning environment.

C. CORE Butte Charter School will provide training to develop the knowledge, attitudes, and skills students need to choose alternatives to self-destructive, violent behavior and dissolve interpersonal and intergroup conflict. The school’s Code of Conduct is to be followed by every student while on school grounds, when traveling to and from school or a school-sponsored activity, and during lunch period, whether on or off campus.

The Student Code of Conduct includes, but is not limited to, the following:
   a. Students are to resolve their disputes without resorting to violence.

   b. Students, especially those trained in conflict resolution and peer mediation, are encouraged to help fellow students resolve problems peaceably.

   c. Students can rely on staff trained in conflict resolution and peer mediation strategies to intervene in any dispute likely to result in violence.

   d. Students needing help in resolving a disagreement, or students observing conflict may contact an adult or peer mediators.

   e. Students involved in a dispute will be referred to a conflict resolution or peer mediation session with trained adult or peer mediators. Staff and mediators will keep the discussions confidential.

   f. Conflict resolution procedures shall not supplant the authority of staff to act to prevent violence, ensure campus safety, maintain order, and discipline students.

DISCIPLINE OF STUDENTS WITH DISABILITIES

Suspension, Expulsion of a Special Education Identified Student: It is the practice of CORE Butte Charter School to develop Behavior Support Plans early when a pattern of misbehavior is noticed in a special education student. CORE will also convene an IEP meeting immediately following acts which seriously disrupt the orderly education program in the learning centers and/or any school related activity, to determine if behavioral supports and intervention need to be put in a student’s IEP to support improved conduct. When needed, an Assessment Plan is developed to allow the school psychologist to conduct a Functional Behavior Assessment to assist the team in appropriately modifying a student’s IEP.

A Manifestation Determination IEP meeting will be convened whenever a change in placement due to misconduct occurs. A change in placement occurs if CORE Butte Charter School personnel have recommended an expulsion or if a student is suspended for more than 10 consecutive school days or the student has been subjected to a series of suspension that constitute a pattern, as follows:
• the series of removals totals more than 10 school days in a school year; and
• the student’s behavior is substantially similar to the child's behavior in previous incidents that resulted in the series of removals; and
• the consideration of additional factors, such as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another.

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, CORE Butte, the parent, and relevant members of the IEP Team shall review all relevant information in the student’s file, including the child’s IEP, any teacher observations, and any relevant information provided by the parents to determine:
a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child’s disability; or
b. If the conduct in question was the direct result of the local educational agency’s failure to implement the IEP/504 Plan.

If the IEP team determines that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child’s disability. Then, the IEP team shall:
a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and

c. Return the child to the placement from which the child was removed, unless the parent and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the IEP team determines that the behavior was not a manifestation of the student’s disability and that the conduct in question was not a result of the failure to implement the IEP, then CORE Butte may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities. However, students are entitled to continue to receive educational services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

**Students Not Yet Eligible for Special Education Services:** A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the school’s disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the school had knowledge that the student was disabled before the behavior occurred.

The school shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

1. The parent/guardian has expressed concern in writing, to supervisory or administrative personnel, or to a teacher of the student that the student is in need of special education or related services; and
2. The parent/guardian has requested an initial evaluation of the student for special education pursuant to federal law; or
3. The teacher of the student or other school personnel has expressed specific concern about a pattern of behavior demonstrated by the student to the school’s Special Education Coordinator/School Psychologist or other supervisory personnel.

However CORE Butte is deemed not to have knowledge as specified in items #1-3 above if the parent/guardian has not allowed an initial evaluation of the student, or has refused services, or if the student has been evaluated and it was determined that the student was not a child with a disability.

If it is determined that the school did not have knowledge that the student was disabled prior to taking disciplinary action against the student, then the student shall be disciplined in accordance with procedures established for students without disabilities.

If a request is made for an evaluation of a student during the time period in which the student is subject to disciplinary action against the student, then the student shall be disciplined in accordance with procedures established for students without disabilities. However, an evaluation shall be conducted in an expedited manner. Until the evaluation is completed, the student shall remain in the educational placement determined by school authorities.

**Special Circumstances:** Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.
The IEP team may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student’s disability in cases where a student:

a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;

b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)7)(D), upon a person while at school, on school premises, or at a school function.

**Interim Alternative Educational Setting:** The student’s interim alternative educational setting shall be determined by the student’s IEP team.

**Due Process Appeals:** The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School if it believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited due process hearing through the Special Education Unit of the Office of Administrative Hearings.

Charter school students are entitled to the same due process rights held by students enrolled in non-charter public schools.

b. Step 2: Investigation of Complaint

a. The compliance officer is encouraged to hold an investigative meeting within five (5) days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or his/her representative to repeat the complaint orally.

b. The complainant and/or his/her representative shall have an opportunity to present the complaint and evidence or information leading to evidence to support the allegations in the complaint. (5 CCR 4631)

c. A complainant’s refusal to provide the school’s investigator with documents or other evidence related to the allegations in the complaint, or his/her failure or refusal to cooperate in the investigation or his/her engagement in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegation. (5 CCR 4631)

d. The school’s refusal to provide the investigator with access to records and/or other information related to the allegation in the complaint, or its failure or refusal to cooperate in the investigation or its engagement in any other obstruction of the investigation, may result in a finding, based on evidence collected, that a violation has occurred and may result in the imposition of a remedy in favor of the complainant. (5 CCR 4631)

Step 3: Response

e. Within thirty (30) days of receiving the complaint, the compliance officer shall prepare and send to the complainant a written report of the investigation and decision, as described in Step #4 below. If the complainant is dissatisfied with the compliance officer’s decision, he/she may, within five (5) days, file his/her complaint in writing with the Board.

f. The Board may consider the matter at its next regular Board meeting or at a special Board meeting convened in order to meet the sixty (60)-day time limit within which the complaint must be answered. The Board may decide not to hear the complaint, in which case the compliance officer’s decision shall be final.

g. If the Board hears the complaint, the compliance officer shall send the Board’s decision to the complainant within sixty (60) days of the school’s initial receipt the complaint or within the time period that has been specified in a written agreement with the complainant. (5 CCR 4631)

Step 4: Final Written Decision

h. The school’s decision shall be in writing and sent to the complainant. (5 CCR 4631)

i. The school’s decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

j. The decision shall include:
1. The findings of fact based on the evidence gathered

2. The conclusion(s) of law

3. Disposition of the complaint

4. Rationale for such disposition

5. Corrective actions, if any are warranted

6. Notice of the complainant’s right to appeal the decision within fifteen (15) days to the CDE and procedures to be followed for initiating such an appeal (5 CCR 4631)

7. For discrimination complaints, notice that the complainant must wait until sixty (60) days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies

k. If an employee is disciplined as a result of the complaint, the decision shall simply state that effective action was taken and that the employee was informed. The report shall not give any further information as to the nature of the disciplinary action.

L. Appeals to the California Department of Education

1. If dissatisfied with the school’s decision, the complainant may appeal in writing to the CDE within fifteen (15) days of receiving the decision. When appealing to the CDE, the complainant must specify the basis for the appeal of the decision and whether the facts are incorrect and/or the law has been misapplied. The appeal shall be accompanied by a copy of the locally filed complaint and a copy of the school’s decision. (5 CCR 4632-4633)

2. Upon notification by the CDE that the complainant has appealed the decision, the School Director/designee shall forward the following documents to the CDE: (5 CCR 4633)

   a. A copy of the original complaint

   b. A copy of the decision

   c. A summary of the nature and extent of the investigation conducted by the school, if not covered by the decision

   e. A report of any action taken to resolve the complaint

   f. A copy of the school’s complaint procedures

   g. Other relevant information requested by the CDE

3. The CDE may directly intervene in the complaint without waiting for action by the school when one (1) of the conditions listed in 5 CCR 4650 exists, including cases in which the school has not taken action within sixty (60) days of the date the complaint was filed with the school.
M. Civil Law Remedies

1. A complainant may pursue available civil law remedies outside of the school’s complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders.

2. For discrimination complaints, however, a complainant must wait until sixty (60) days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if the school has appropriately, and in a timely manner, apprised the complainant of his/her right to file a complaint. The Family Educational Rights and Privacy Act (FERPA)

(20 U.S.C. § 1232g; 34 CFR Part 99)

The Family Education Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their child's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.

Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.

Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):

1. School officials with legitimate educational interest;
2. Other schools to which a student is transferring;
3. Specified officials for audit or evaluation purposes;
4. Appropriate parties in connection with financial aid to a student;
5. Organizations conducting certain studies for or on behalf of the school;
6. Accrediting organizations;
7. To comply with a judicial order or lawfully issued subpoena;
8. Appropriate officials in cases of health and safety emergencies and/or
9. State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook or newspaper article) is left to the discretion of each school.
A. The rights of parents/guardians of school students include, but are not limited to, the following:

1. To observe, within a reasonable period of time after making the request, the classroom(s) in which their child is enrolled or for the purpose of selecting the school in which their child will be enrolled.

Parents/guardians may observe instructional and other school activities that involve their child in accordance with Board policy and Administrative Regulations adopted to ensure the safety of students and staff, prevent undue interference with instruction or harassment of school staff, and provide reasonable accommodation to parents/guardians. Upon written request by parents/guardians, the School Director/designee shall arrange for parental observation of a class or activity in a reasonable time frame.

2. To meet, within a reasonable time of their request, with their child’s teacher(s) and the School Director/designee of the school in which their child is enrolled.

3. Under the supervision of school employees, to volunteer their time and resources for the improvement of school facilities and school programs, including, but not limited to, providing assistance in the classroom with the approval, and under the direct supervision, of the teacher.

4. To be notified on a timely basis if their child is absent from school without permission.

5. To receive the results of their child’s performance and the school’s performance on standardized tests and statewide tests.

6. To have a school environment for their child that is safe and supportive of learning.

7. To examine the curriculum materials of the class(es) in which their child is enrolled.

Parents/guardians may inspect, in a reasonable time frame, all primary supplemental instructional materials and assessments, including textbooks, teacher’s manuals, films, tapes and software. The school may charge an amount not to exceed the cost of duplication.

8. To be informed of their child’s progress in school and of the appropriate school personnel whom they should contact if problems arise with their child.

9. To have access to the school records of their child.
10. To receive information concerning the academic performance standards, proficiencies or skills their child is expected to accomplish.

11. To be informed in advance about school rules, attendance policies, dress codes and procedures for visiting the school.

12. To receive information about any psychological testing the school does involving their child and to deny permission to give the test.

13. To refuse to submit or to participate in any assessment, analysis, evaluation or monitoring of the quality or character of the student’s home life; any form of parental screening or testing; any nonacademic home-based counseling program; parent training; or any prescribed family education service plan.

14. To participate as a member of a parent advisory committee, school site council or site-based management leadership team in accordance with any rules and regulations governing membership in these organizations.

15. To question anything in their child record that the parent/guardian feels is inaccurate or misleading or is an invasion of privacy and to receive a response from the school.

B. The School Director/designee shall obtain informed written parental consent before testing any student for a behavioral, mental or emotional evaluation. A general consent, including medical consent used to approve admission to or involvement in, a special education or remedial program or regular school activity, shall not constitute written consent for these purposes.

C. The School Director/designee shall ensure that school staff understands the rights of parents/guardians afforded by law and Board policy and follow acceptable practices that respect those rights.

D. In addition, the School Director/designee shall provide interested parents/guardians with opportunities to participate in professional development programs offered at the school in which their child is enrolled.

E. The School Director/designee shall ensure that parents/guardians receive notification regarding their rights in accordance with law.

F. School officials or law enforcement officials have the authority to investigate or intervene in cases of suspected child abuse.

G. Parent Responsibilities as stated in the Acknowledgement of Responsibilities:

- I am responsible for the daily monitoring/verification of subjects studied with scheduled monitoring by the Teacher.
- I am liable for the cost of replacement or repair for willfully damaged, lost or destroyed books, computers, software and other school property loaned to my child.
- I acknowledge that all learning resources used, print, non-print, technology, etc., is property of the school and all materials must be returned to the school upon proper notice.
• If I become aware that special or extenuating circumstances will prohibit my student from turning in the assigned work by the due date, I will contact the Teacher prior to the due date to make alternative arrangements.

• I understand that it is my responsibility to provide any needed transportation for all educational services offered by the school.

• I understand that CORE, like other California public schools, is required to assess students using the tests required by the Standardized Testing and Reporting Program (STAR), and agree that I will bring my student to the testing in the Spring.

**Administrative Regulation:**

**A.** The Executive Director/designee shall develop processes to determine when an individual is eligible for special education services and shall establish systematic procedures for special education program identification, screening, referral, assessment, planning, implementation, review, and triennial assessment.

**B.** 1. The Executive Director/designee shall establish a method whereby parents/guardians, teachers, appropriate professionals, and others may refer an individual for assessment for special education services.

   2. Identification procedures shall be coordinated with school procedures for referral of students with needs that cannot be met with modifications to the regular instructional program.

**C.** The Executive Director/designee shall notify parents/guardians in writing of their rights related to identification, referral, assessment, instructional planning, implementation, and review, including procedures to identify individuals who need special education services.

**Referrals for Special Education Services**

**A.** Before the initial provision of special education and related services to a student with a disability, the school shall conduct a full and individual initial evaluation of the student.

**B.** Within fifteen (15) days of the referral of any student for special education and related services, the school shall develop a proposed evaluation plan, unless the parent/guardian agrees in writing to an extension.

**C.** The proposed evaluation plan shall meet all of the following requirements:

1. Be in a language easily understood by the general public

2. Be provided in the native language of the parent/guardian or other mode of communication used by the parent/guardian unless it is clearly not feasible

3. Explain the types of evaluation to be conducted
4. State that no individualized education program (IEP) will result from the evaluation without parent/guardian consent

A. Prior to conducting an initial evaluation, the school shall provide the parent/guardian with prior written notice.

Parent/Guardian Consent for Evaluations

A. Upon receiving the proposed evaluation plan, the parent/guardian shall have at least fifteen (15) days to decide whether or not to consent to the initial evaluation. The school shall not interpret parent/guardian consent for initial evaluation as consent for initial placement or initial provision of special education services.

B. Informed parental consent means that the parent/guardian: (34 CFR 300.9)

1. Has been fully informed of all information relevant to the activity for which consent is sought, in his/her native language or other mode of communication

2. Understands and agrees, in writing, to the carrying out of the activity for which his/her consent is sought and the consent describes that activity and lists the records (if any) that will be released and to whom

3. Understands that the granting of consent is voluntary on his/her part and may be revoked at any time

4. Understands that if he/she revokes consent, that revocation is not retroactive (i.e., it does not negate an action that has occurred after the consent was given and before the consent was revoked)

C. The school shall make reasonable efforts to obtain the informed consent of the parent/guardian for an initial evaluation or reevaluation of a student and maintain a record of its attempts to obtain consent:

D. If a parent/guardian refuses to consent to the initial evaluation or fails to respond to a request to provide consent, the school may, but is not required to, pursue an evaluation by utilizing the procedural safeguards, including the mediation and due process procedures.

E. For a student who is a ward of the state and not residing with his/her parent/guardian, the school may conduct an initial evaluation without obtaining informed consent.

F. The school need not obtain parent/guardian consent before reviewing existing data as part of an evaluation or administering a test or other evaluation that is administered to all students, unless consent is required from the parents/guardians of all students. (34 CFR 300.300)

Conduct of the Evaluation

A. The school shall complete the determination as to whether the student is a student with a disability, conduct the initial evaluation to determine his/her educational needs, and develop an IEP within sixty (60) days of receiving informed parent/guardian consent for the evaluation.
B. The evaluation shall be conducted by qualified personnel who are competent to perform the assessment as determined by the school, county office of education, or special education local plan area (SELPA).

C. The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services.

D. 1. In conducting the evaluation, the school shall use a variety of assessment tools and strategies to gather relevant functional, developmental, and academic information about the student.

2. The school shall also use any information provided by the parent/guardian that may assist in making the determination as to whether the student is a student with a disability and, if so, the necessary components of his/her IEP when the IEP is developed, including information related to enabling the student to be involved in and to progress in the general education curriculum.

E. 1. The school's evaluation shall not use any single measure or assessment as the sole criterion for determining whether a student is a student with a disability and for determining the appropriate educational program for the student.

2. The assessment shall use technically sound instruments that may assess the relative contribution of cognitive and behavioral factors in addition to physical or developmental factors.

F. The school shall also ensure that assessments and other evaluation materials provide relevant information that directly assists persons in determining the student's educational needs.

G. 1. Students shall be assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities.

2. The school shall ensure that the evaluation is sufficiently comprehensive to identify all of the student's special education and related service needs, whether or not commonly linked to the disability category in which the student has been classified.

H. As part of the initial evaluation and any reevaluation, the IEP team and other qualified professionals, shall, if appropriate, review existing evaluation data on the student, including evaluations and information provided by the parents/guardians; current classroom-based local or state assessments and classroom-based observations; and observations by teachers and related services providers.

I. On the basis of that review and input from the student's parent/guardian, the team shall identify what additional data, if any, are needed to determine:

1. Whether the student is a student with a disability, or in the case of a reevaluation, whether the student continues to have a disability, and the educational needs of the student

2. The present levels of academic achievement and related developmental needs of the student
3. Whether the student needs, or continues to need, special education and related services

4. Whether any additions or modifications to the special education and related services are needed to enable the student to meet the measurable annual goals set out in his/her IEP and to participate, as appropriate, in the general education curriculum

Eligibility Determination

A. 1. Upon completion of the administration of assessments and other evaluation measures, a group of qualified professionals and the parent/guardian shall determine whether the child is a student with a disability and the student's educational needs.

2. In interpreting the data, the group shall draw information from a variety of sources, including aptitude and achievement tests, parent/guardian input, and teacher recommendations, as well as information about the student's physical condition, social or cultural background, and adaptive behavior.

B. The personnel who evaluate the student shall prepare a written report of the results of each evaluation to include, but not be limited to, the following:

1. Whether the student may need special education and related services

2. The basis for making the determination

3. The relevant behavior noted during the observation of the student in an appropriate setting

C. If a determination is made that a student has a disability and needs special education and related services, an IEP shall be developed within a total time not to exceed sixty (60) days, not counting days between the student's regular school sessions, terms, or days of school vacation in excess of five (5) school days, from the date of the receipt of the parent/guardian's consent for evaluation, unless the parent/guardian agrees, in writing, to an extension.

Independent Educational Evaluation

A. 1. The parents/guardians of a student with a disability have the right to obtain an independent educational evaluation at public expense under the same criteria used for a school initiated evaluation.

2. An independent educational evaluation is an evaluation conducted by a qualified examiner who is not employed by the school.

3. Public expense means the school either pays for the full cost of the independent educational evaluation or ensures that the evaluation is otherwise provided at no cost to the parent/guardian.

B. The parent/guardian is entitled to only one (1) independent educational evaluation at public expense each time the school conducts an evaluation with which the parent/guardian disagrees.
C. Upon receiving the request for an independent educational evaluation, the school shall, without unnecessary delay, either:

1. File a due process complaint to request a hearing to show that its evaluation is appropriate

2. Ensure that an independent evaluation is provided at public expense, unless the school can later demonstrate at a hearing that the evaluation obtained by the parent/guardian did not satisfy the school's criteria

D. If a due process hearing decision determines that the school's evaluation is appropriate, then the parent/guardian may obtain an independent evaluation but not at public expense.

E. The results of an independent evaluation obtained by the parent/guardian, whether at public or private expense, shall be considered if it meets school criteria in any decision made with respect to FAPE and may be presented as evidence at a hearing on a due process complaint.

Reevaluation

A. A reevaluation shall be conducted when the school determines that the educational or related services needs of the student, including improved academic achievement and functional performance, warrant a reevaluation or if the student's parent/guardian or teacher requests reevaluation.

B. The school shall ensure that any reevaluations of the student are conducted in accordance with the evaluation procedures.

C. 1. Before entering kindergarten or first grade, children with disabilities who are in a preschool program shall be reevaluated to determine if they still need special education and services.

2. IEP teams shall identify a means of monitoring the continued success of children who are determined to be eligible for less intensive special education programs to ensure that gains made are not lost by a rapid removal of individualized programs and supports for these children.

Administrative Regulation:

A. The school or program shall provide qualified teachers who are content experts and are capable of supporting students’ learning throughout the online course

B. Students have access to qualified professionals (teachers, mentors, counselors, etc) or paraprofessionals who can support their online course participation.
C. Teachers monitoring or teaching online courses will be provided professional
development if needed to effectively support students in their online learning.

D. Total student enrollment in online sections will be limited as necessary to allow for
adequate teacher/student interaction for positive learning outcomes.

E. Student EU budget may be used to make technology hardware and software
accessible to students if needed.

F. Upon request, students are entitled to appropriate advisement to ensure that they
have the necessary background and technology to be successful in an online course.

G. Online assessments shall be proctored by a parent, tutor, or teacher to ensure that
the student submitting material for assessment is actually the student enrolled in the
online course.
Board Policy:

A. CORE Butte Charter School will involve parents in the joint development of the LEA (Single School District) Plan and the processes of school review and improvement for program improvement schools under ESEA Section 1116, through the Charter Advisory Council, made up of a majority of parents, and through the Board of Directors, also made up of a majority of parents. All meetings will be properly noticed according to the Brown Act and published on the school website.

B. Parents will be involved in the development and updating of this policy through invitations to attend Charter Advisory Council meetings and School Board meetings.

C. CORE Butte Charter School will plan and implement effective parental involvement activities to improve student academic achievement and school performance through parent training and seminars, as well as parent coaching.

D. CORE Butte Charter School will build the schools’ and parents’ capacity for strong parental involvement through continuous offerings of training, continuous updates through Title 1 program reports, and one-on-one parent-teacher meetings.

E. CORE Butte Charter School will coordinate and integrate parental involvement strategies under Part A and under other programs as specified.

F. CORE Butte Charter School will conduct, with the involvement of parents, an annual evaluation of the content and effectiveness of this parental involvement policy in improving the academic quality of the school, specifically asking parents how to build capacity for involvement of parents, and use the findings of the evaluation to design more effective parental involvement.

G. CORE Butte Charter School will involve parents in the school’s activities through invitations to conferences and events regarding the school’s services.

H. When school-parent compacts are discussed or developed, all Title 1 parents will be invited to attend.

I. Parents with limited English proficiency will be contacted in their own language. Accessibility for parents with disabilities will be ensured. Parents of migratory students will be specifically contacted by Title 1 staff.
Board Policy:

A. The Board of Directors desires to protect students from risks posed by involvement in sports activities while providing an appropriate education for all students.

B. Participation in sports and/or other activities may be limited by the school’s liability insurance for students.

Scholastic Eligibility

A. In order to be eligible to participate in CORE’s sports programs, students must be maintaining minimum progress towards meeting high school graduation requirements, must be currently passing all classes according to prior learning period posted grades, and must have achieved an unweighted 2.0 grade-point average, on a 4.0 scale, at the conclusion of the previous semester.

B. Probationary Period: The governing board will allow a student who does not achieve the above requirement in the previous grading period to remain eligible to participate in interscholastic athletics during a probationary period. The probationary period shall not exceed one semester in length. A student who does not meet the above requirements during the probationary period shall not be allowed to participate in interscholastic athletics in the subsequent grading period.

C. Students’ semester eligibility date will be the designated report card deadline date set each semester. This is the date on which all students become eligible and ineligible based on their officially posted gpa in the immediately previous grading period.

D. Grades cannot be changed following the grading period for purposes of addressing any deficiency in an individual student’s scholastic eligibility.

E. Only grades changed prior to the established eligibility date and changed in accordance with all California State Education Code requirements and approved by the school director may be used for purposes of determining scholastic eligibility.

F. A grade(s) of “Incomplete” shall not be considered a passing grade under this bylaw unless the “Incomplete” grade shall become a passing letter without further achievement or accomplishment by a student, as stated by the teacher of the course.
CALIFORNIA SCHOLARSHIP FEDERATION
ATTENTION: FRESHMAN, SOPHOMORES, JUNIORS, AND SENIORS

The California Scholarship Federation (known as CSF) is a statewide organization whose purpose is to recognize students who have demonstrated outstanding academic achievement. Qualifying for membership is on a semester basis following a point system that requires A’s and B’s in the most difficult classes. To become a lifetime member (Seal bearer) students must have qualified for four semesters during their last three years of high school, including one semester in the senior year. At graduation lifetime members receive a special seal on their diploma, a certificate, and gold cords to be worn at the ceremony.

CORE is part of the CSF and students have the opportunity to become members of the California state honor society opening the door for several scholarships. CSF offers members the chance to earn an important item for their resumes, as well as participating in community service activities. (The motto of CSF is "Scholarship For Service.")

If you are interested, contact the HS Counseling Department or fill out the CSF application on our website, www.corebutte.org. Applications must be submitted during the open application period each semester. Application periods are currently September 1st through 30th, and February 1st through 28th. Late applications cannot be accepted according to state rules. Students will be notified of their application status following the close of the application period. Activities and projects to members will be communicated through e-mail.

*** Interested students please note that you must apply every semester. Don't assume that your grades will automatically qualify you. If you have any questions about the program or what is required to qualify, please contact the High School Counselor at your learning center.
CALIFORNIA’s STATEWIDE TESTING SYSTEM
Signed into law on October 2, 2013, Assembly Bill 484 launched a new student testing system for California’s schools, now called the California Assessment of Student Performance and Progress (CAASPP). The CAASPP system is based on the state’s new California Common Core State Standards (CA CCSS) for English–language arts (ELA) and mathematics, adopted by the State Board of Education in 2010. This new system replaces the Standardized Testing and Reporting (STAR) Program that was based on 1997 standards. The primary goal of the new statewide testing program is to better prepare all students for college and careers in the twenty-first century. Computer-based assessments, developed through the Smarter Balanced Assessment Consortium, form the cornerstone for CAASPP.

COMMON CORE STATE STANDARDS
The new CA CCSS for ELA and mathematics replace the 1997 academic standards. The CA CCSS, like the earlier state standards, describe what students should know and be able to do in these two subject areas at each grade level from kindergarten through grade twelve. Since 2010, 44 states, including California, have adopted the Common Core State Standards for ELA and mathematics. The CA CCSS are important because they help ensure that all students, no matter where they live, will graduate from high school prepared for college and work. Having clearly defined learning objectives helps parents or guardians and teachers work together to make sure their students succeed. The overall goal is that all students have the skills and knowledge needed to compete in today’s global economy.

TESTING IN 2015-2016
The following tests are required:
- Spring Smarter Balanced Test for ELA and mathematics in grades three through eight and grade eleven
- The California Standards Test (CST), the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA) for science in grades five, eight, and ten
- The California Alternative Assessment (CAA) for ELA and mathematics in grades two through eleven (Students who are eligible for the CAA will not participate in the Smarter Balanced Test.)

The following tests are optional:
- Standards-based Tests in Spanish (STS) for reading/language arts in grades two through eleven

TEST FORMATS
The spring assessments are presented in two different formats:
- Smarter Balanced assessments are computer-based and presented in a variety of item types: multiple-choice, short answer, and constructed-response questions and a performance task in all grades tested. There is no isolated writing task, as was used in the STAR Program. For Smarter Balanced, students will show their writing knowledge and skills in a number of ways in all grade levels tested.
- The CST and CMA for science are paper-and-pencil tests presented in a multiple-choice format. The CAA includes a variety of test formats that are presented one-on-one by a trained examiner.

TESTING WINDOWS
The Smarter Balanced Test will be administered sometime between March and the end of May, during a testing window assigned by the testing contractor. Schools establish their own testing schedules within that window. The CST, CMA,
STS (if given), and CAA will be administered within a testing window of 25 instructional days that includes 12 instructional days before and after the completion of 85 percent of the school’s, track’s, or program’s instructional days.

**STUDENT PARTICIPATION**

All students in grades three through eight and grade eleven are to take the Smarter Balanced Test and the designated CSTs or CMAs in the spring. The exceptions are students who have severe cognitive disabilities and are required to take the CAA, according to their individualized education program (IEP) or 504 plan. English learners who have been enrolled in a school in the United States for less than 12 months (cumulative) also are excused from taking the ELA sections of the spring tests.

**Results** of tests provide valuable information about the academic achievement of all students. It is important, therefore, that students do their best on those tests. On testing days, please make sure your student attends school, gets a good night’s rest, and has a healthy breakfast.

Test results will be sent to each student’s home address on one CAASPP Student Report within 20 days after the school district receives the reports. The CAA, CMA, or STS results will each be sent in a separate report. Individual results are confidential and will be shared only with parents or guardians and the student’s teacher(s). Please keep these reports to use when talking to teacher(s) about ways to support your student's learning.

Contact **866-267-3822** during regular school hours if you have questions about the Testing Program or the testing schedule.
CAHSEE Notification
For Students in Grades Nine Through Twelve

California High School Exit Examination has been suspended for the 2015–16, 2016–2017, and 2017–2018 school years.

Notice to Parents, Guardians, and Students
All California public school students, except eligible students with disabilities, must pass the California High School Exit Examination (CAHSEE) to receive a high school diploma. Students also must meet all other state and local requirements. All students, including English learners, will take the exam for the first time in grade ten. Students who do not pass the exam in grade ten will have more opportunities to retake the part(s) not passed in grades eleven and twelve. Students with disabilities who are eligible for the exemption must still take the CAHSEE in grade ten. This is due to federal laws and is not a condition of graduation. To learn more about test dates and guidelines go to the California Department of Education (CDE) Administrative Documents Web page at http://www.cde.ca.gov/ta/tg/hs/admin.asp.

Subjects Covered on the CAHSEE
The exam consists of two parts. The first part includes English–language arts (reading and writing). The second part covers mathematics. All questions are aligned to California’s content standards adopted by the State Board of Education (SBE) on July 9, 2003. The English–language arts portion of the CAHSEE tests California’s English–language arts content standards through grade ten. The mathematics portion tests mathematics content standards from grades six and seven, and Algebra I. More information about the content standards covered on the exam can be found online. You can download the CAHSEE exam blueprints from the CDE CAHSEE Web page at http://www.cde.ca.gov/ta/tg/hs/resources.asp.

Requirements for Passing the CAHSEE
Students must earn a score of 350 or higher on each part of the CAHSEE (English–language arts and mathematics) to pass the exam. Students do not need to pass both parts of the exam during the same test administration to satisfy the CAHSEE requirement.

Students with Disabilities
Eligible students with disabilities with an active individualized education program (IEP) or Section 504 plan can satisfy the CAHSEE requirement by:

- passing the examination,
- meeting the exemption requirement pursuant to California Education Code (EC) Section 60852.3, or
- receiving a local waiver pursuant to EC Section 60851(c)(1).

Information for students with disabilities can be found on the CDE Students with Disabilities—CAHSEE Exemptions and Waivers Web page at http://www.cde.ca.gov/ta/tg/hs/cahseewaiveexempt.asp.
EC Section 60852.3 provides an exemption from meeting the CAHSEE requirement as a condition of receiving a diploma of graduation. To be eligible, students with disabilities must have an IEP or a Section 504 plan. The IEP or Section 504 plan must state that the student is scheduled to receive a high school diploma. It must also state that the student has satisfied or will satisfy all other state and local requirements for high school graduation, on or after July 1, 2009. The exemption from meeting the CAHSEE requirement ends June 30, 2015. The SBE can extend the exemption one additional year if needed to implement the alternative means assessment.

The CAHSEE regulations specify accommodations and modifications that students with disabilities must be permitted to use if specified in the student’s IEP or Section 504 plan. The IEP or plan must specify that these modifications or accommodations can be used on the CAHSEE, standardized testing, or for use during classroom instruction and assessments. Students who use an accommodation and earn a score of 350 or higher have passed that part of the CAHSEE. Students who use a modification and earn the equivalent of a passing score on one or both parts of the CAHSEE have not passed. However, to meet the CAHSEE requirement, a principal may request a local waiver of the CAHSEE requirement from their local school board.

Test Variations for Students who are English Learners

Students who are English learners must be allowed to take the CAHSEE with certain test variations. These apply if used regularly in the classroom. For example, English learners must be permitted to hear the test directions in their primary language or use a translation glossary.

Students who are English learners are required to take the CAHSEE in grade ten with all other grade ten students. During their first 24 months in a California school, English learners are to receive 6 months of instruction in reading, writing, and comprehension in English (EC Section 60852). During this time, they are still required to take the CAHSEE. All students must pass the CAHSEE in English to receive their high school diploma.

Testing Dates

The CAHSEE will be administered at the school site during regular school hours on the dates specified in the chart below. Students in grade ten must take the CAHSEE in February 2016. For grade ten students who are absent, a make-up will be offered in May. Grade eleven and twelve students who have not passed one or both parts of the CAHSEE will be offered the exam on the dates listed in the chart below.

CURRENT PENDING CAHSEE LEGISLATION:

There is currently pending legislation that will impact upcoming California High School Exit Examination (CAHSEE) administrations. Pending legislation and budget authority, the
CAHSEE may be suspended in 2015–16 school year. In accordance with California Education Code Section 60851(d), there will be no July 2015 CAHSEE administration.

Senate Bill (SB) 172 (Liu), sponsored by the State Superintendent of Public Instruction (SSPI) Tom Torlakson, proposes to suspend the administration of the high school exit examination for three years, and the requirement that students pass this examination as a condition of graduation from high school. Under the proposed bill, the administration of the examination would be suspended during the 2016–17, 2017–18, and 2018–19 school years, or when the approved high school exit examination is no longer available.

The bill also requires the California Department of Education (CDE) to convene an advisory panel to provide recommendations to the SSPI on the continuation of the high school exit examination and on alternative pathways to satisfy specified high school graduation requirements. On May 28, 2015, SB 172 passed the Senate Appropriations Committee and will now move to the full Senate for consideration.

In the event that SB 172 does not become law, the 2015–16 May Revision, Omnibus Education Trailer Bill, requests that language be adopted to continue the administration of the CAHSEE. The CDE is working with the Legislature and the Department of Finance to ensure that the CDE can continue the current contract and the CDE is working closely with the CAHSEE contractor to be responsive should this occur.

The CDE is also working closely with the Legislature to determine what the state will do during the suspension period and any impact this may have on students in the Class of 2016 and others who have yet to meet the exit examination graduation requirement.

Additional Information

For the latest information regarding the CAHSEE, please visit the CDE CAHSEE Web page at http://www.cde.ca.gov/ta/tg/hs/. If you have any further questions about the CAHSEE, please contact our school office at (530) 894-3952.
CORE Butte offers an alternative homeschool education model that requires one-on-one parent participation. In order to be enrolled with CORE Butte Charter School, a student MUST be able to work independently. If a student does not meet the criteria outlined in this compact, the student should not be enrolled at CORE. Success in independent study requires motivation and a strong commitment on the part of the student and his or her parents/guardians/caregivers. It also requires sufficient academic preparation. Schools typically assess an applicant’s likelihood of success in independent study prior to enrollment. [EC Section 51746(b)(1); 5 CCR 11700(d)(1)(B)]

CORE Butte’s charter states: ‘Participation in the Charter School requires a commitment from both students and parents to the goals and vision of this charter. All prospective students and their parents or guardians will complete an enrollment and interview process before admission.’

If a third CV/MAR is issued, that independent study may not be the appropriate setting for student success. A follow-up letter from the administration to the parent/guardian will be sent. A meeting with the parent/teacher/student team, or a Student Success Team including an administrator, will take place, and a plan will be established to ensure that the compact is fulfilled. The student will be monitored on a weekly basis from that point. If the assigned work is not completed upon the agreed due date, or a future compact violation takes place, a second CV/MAR is issued. If a third CV/MAR is issued, the student will be asked to withdraw and the County School Attendance and Review Board (SARB) may be notified of the truancy.

ACTIVITIES ELIGIBILITY PACKET

CO-CURRICULAR CODE OF CONDUCT / ASSUMPTION OF RISK / DRUG, ALCOHOL, & STERIOD BAN / INSURANCE / PHYSICAL

STUDENTS:
Your participation in high school activities is dependent on your eligibility. PROTECT that eligibility by reviewing with your parent(s)/guardian(s) this summary of the CORE Butte Co-Curricular Code of Conduct. Co-curricular programs contribute to the educational, emotional and social development of students. Since students are not required to participate in co-curricular programs, the choice to participate in these programs is a privilege and students are required to follow the Code of Conduct to remain eligible to participate. Co-curricular activities include student body offices, athletics, FFA, and any other activities that are outside the regular school day and not a requirement of a course of instruction. Students who choose to participate in Co-curricular activities are expected to conduct themselves in a manner that reflects the values of the school and community they represent. In addition to the behavioral standards and disciplinary consequences applicable to all students in the District, each student desiring to participate in a co-curricular activity must comply with the District's co-curricular Code of Conduct.

PURPOSE OF INTERSCHOLASTIC ATHLETICS and CO-CURRICULAR ACTIVITIES is to give students the opportunity to:

- develop organizational skills to balance athletics/co-curricular activities and academics.
- learn new skills and improve existing ones.
- experience commitment and dedication to school, co-curricular activities, sport, team & coach.
- develop physical vigor and desirable habits in health and safety.
- learn what it takes to be a good teammate.
- develop new friendships.
- observe and exemplify good sportsmanship.
- demonstrate truthfulness.
- be dependable in fulfilling obligations and commitments.
- accept responsibility for consequences of actions and not make excuses or blame others.
- strive to excel.
- persevere, give 100% effort and not give up in the face of setbacks.
- control anger and frustration and refrain from displays of temper and bad language.
- accept losing and winning graciously; to congratulate opponents, not sulk, or display other negative behaviors.
- realize that athletic competition and co-curricular participation carries with it certain responsibilities.
- learn that a violation of this Code has a consequence - and this same sequence occurs throughout endeavors in life.

I understand that once I sign the eligibility statement all eligibility rules will apply. These expectations will apply from the first day of the school year or the start of the extra-curricular activity (including pre-season meetings, practices, camps, and school-sponsored activities) whichever comes first. This includes the activities scheduled prior to the start of the school year, through the end of the sport season and/or the end of the school year, whichever is longer in duration.

PARENTS:
The reason for developing the district's Code of Conduct is not to punish those who break the rules. The Code of Conduct sets behavioral standards to assist youth in making good decisions. It also sets the clear and consistent boundaries for your son/daughters participation in co-curricular activities and athletics.

REVIEW the following rules with your son or daughter. Your emphasis on the value of following these rules cannot be overstated.

Parent Responsibility

Parents and guardians are essential partners in maintaining a safe, educational and enjoyable experience for students. When present at the District’s events, including athletic games, practices, and co-curricular activities, they are expected to model the kind of citizenship and sportsmanship that is expected and required of students. The following are among the District’s expectations for the parents of student athletes and co-curricular participants.

Parents/guardians:

• have knowledge, understanding and agreement about the Rules and Conduct/Standards. Included in this document.
• know the consequences for violations of those Rules and Conduct/Standards, and will assist in their enforcement.
• are supportive and encourage their children to demonstrate appropriate behavior while representing the District as student athletes and co-curricular participants.
• hold their children accountable for their actions and guide them in making proper decisions regarding drugs, alcohol and tobacco.
• hold their children accountable for their actions and behaviors towards others ensuring that their son/daughter does not bully or harass others and that their son/daughter is not a bystander to this behavior.

• adhere to state laws that prohibit smoking on school grounds or in school buildings.
• bring their concerns to the attention of the appropriate coach(es), including concerns about the mental and physical treatment of their children, ways to help their children improve, and their children’s behavior. They schedule meetings with coaches in order that their concerns may be discussed at appropriate times and places.
• demonstrate a respect for the privacy of all student athletes, and an understanding of the coaches’ responsibilities to all student athletes, by refraining from speaking with coaches about such issues as playing time, athletic ability, and team strategy, insofar as those subjects relate to student athletes other than their own child.

INFORMED CONSENT:

By its nature, participation in interscholastic athletics includes risk of injury and the transmission of infectious diseases such as HIV, Hepatitis B, herpes and others. Although serious injuries are not common and the risk of HIV transmission is almost nonexistent in supervised school athletic programs, it is impossible to eliminate all risk. Participants have the responsibility to help reduce that risk. Participants must obey all safety rules, report all physical and hygiene problems to their coaches, follow proper conditioning programs, and inspect their own equipment daily.

Students will comply with all state and local laws as well as all school district policies and regulations. Students are required to comply with all Education Codes 24 hours a day, seven days a week in order to remain eligible for participation. Any student who

First Step: Suspension from co-curricular participation for no less than 40 days of school from the first date of disciplinary action.
**Second Step:** Suspension from co-curricular participation for the duration of the school year. The student will be placed on probation for the following year, and a subsequent violation while on probation will cause the student to be denied further co-curricular participation for the remainder of the school year.

**DUE PROCESS REVIEW:**
Students suspended from co-curricular activities will be notified in writing by the principal or his/her designee of the suspension and the basis thereof, as soon as practical after the school becomes aware of the basis for the suspension. Students shall be entitled to a conference with the principal/designee within two days of the notice referred to above. Unless otherwise directed by the principal/designee, the actual suspension shall not take place until said conference is held.

- If the student or his/her parent is not satisfied with the results of the conference referred to in paragraph B above, they may have the decision reviewed by the superintendent or his/her designee by making a request within five (5) school days of receiving the notification of the decision referred to in paragraph B above.
